DID YOU KNOW?

ACCORDING TO THE NATIONAL CANCER INSTITUTE:

Women age 40 and older should have mammograms every 1 to 2 years.

Getting a high-quality mammogram screening and having a clinical breast exam (an exam done by a health care provider) on a regular basis are the most effective ways to detect breast cancer early.

Women can get high-quality mammograms in breast clinics, hospital radiology departments, mobile vans, private radiology offices, and doctors' offices.

ABOUT OUR INSTRUCTOR

MERRYL FULMER, BS,RT,(R)(M)(MR)(QM)(CT)
A Diagnostic Imaging Specialist who has been training Mammographers since 2001.

OUR MAMMOGRAPHY PROGRAM is designed for ARRT (American Registry of Radiologic Technologists) registered, registry eligible, or radiologic technology students in the second year of their education. **Proof of status must be provided.**

This program is approved by the ASRT (American Society of Radiologic Technologist) for 40 Category A CE (Continuing Education) credits.

This program also exceeds the MQSA (Mammography Quality Standards Act) didactic (academic) requirements and prepares graduates for the ARRT Mammography Certification Examination. **(Note: this program does not include the actual performance of clinical mammograms).**
