

# The Learning Center

## Welcome to the Learning Center!

The goal of the Learning Center is to provide learning support services in multiple disciplines through tutoring by peer and professional Learning Associates. The Center increases student engagement in the learning process, promotes greater understanding in the tutored subjects, and supports overall student retention and academic success.

Students require no appointments and can utilize tutoring services on a walk-in basis. Learning Associates typically tutor students in small groups. Information about services, times and subject tutors is available on a semester schedule of services [View the Learning Center Fall 2017 Tutoring Schedule]. Additionally, the Center offers Midterm and Final Exam Reviews, and Move-Up and Summer Bridge Workshops.
