

## Community Outreach & Field Trips

Our assignment is to teach children the gift of giving back to their community, the gift of volunteerism and caring for others. In return, several local companies and organizations lend out a hand and expose the children to several subject matters of importance. Here is a listing of our community partners:

- St. Jude Hospital
- Newark Museum
- Newark Health Department
- Mobile Dentists (Smile Dental Program)
- Rutgers University's Paul Robeson Center
