

# Supply Chain Management (A.S.)

Division of Business — Curriculum Code: 2017

*Will Earn Upon Program Completion: Associate in Science (A.S.) Degree*

The Supply Chain Management degree program is designed to prepare individuals to pursue careers in the field. Students who earn a degree in Supply Chain Management will be able to work as logistics managers, supply chain consultants, transportation and warehouse operators, sales agents, forecasters, distributors, lean production personnel, customer service representatives, and planning managers. They will gain sufficient knowledge of the business world to enable them to function effectively within large and small corporations, as well as in non-profit organizations and government agencies. Students will be prepared adequately to pursue higher levels of study in the area of Supply Chain Management or related fields at four-year institutions.
