About the College ____

Essex County College is a fully accredited two-year community college dedicated to providing its students with a stimulating educational experience. It is a comprehensive, open admissions college, ready to serve all that can demonstrate the potential to achieve.

Essex opened its doors in September 1968 in renovated facilities at Clinton Street, Newark. In April 1976, the College moved to its permanent headquarters at 303 University Avenue. Today, Essex enrolls an estimated 8,000 full and part time students at a magnificent urban campus in the center of one of the most exciting educational complexes in the metropolitan area and at its West Essex Campus in West Caldwell

Main Campus.

The single, multilevel structure that slopes up the West Market Street hill has been acclaimed an architectural "wonder." The A. Zachary Yamba Building is a versatile facility providing invaluable resources for learning and a unique public forum for lectures, concerts and exhibits. The climate-controlled unit contains more than 502,000 square feet and a three-blocklong structural core that opens to all levels and links all sections of the College. Adjacent to the A. Zachary Yamba Building is the Physical Education Building and Child Development Center. The Mary B. Burch Theater for the Performing Arts opened at the Newark campus in 1988.

In 1996, Center for Technology building opened its doors to Essex County College. This 36,000 square foot building is home to the students, faculty, and staff for engineering technology and computer science based degrees, certificates and customized training programs.

The college opened its cutting edge, 30, 000-square foot Center for Health Sciences in the fall of 2008. This three story facility, connected to the southeast corner of the A. Zachary Yamba Building, houses high-tech classrooms and laboratories for the college's Nursing, Physical Therapist Assistant and Radiography degree programs.

Students now have access to a five-level Parking Deck for 836 vehicles. Opened in 2008, the new deck is located on the site of the former Lot D next to the Physical Education Building. This well-lit and secure facility replaces the old 292 vehicle lot.

The mission of any college is to provide its students with every opportunity to create, learn, and understand, all of which are inherent to the college experience. With the opening of the Clara E. Dasher Student Center in 1999, Essex County College has more than met this mission, with a premiere, state-of the art facility that brings together students, faculty, staff, and community members for a true cultural and learning experience. The Clara Dasher Student Center mirrors the strong legacy of the women after whom the building was named. It is one of the centerpieces of our community; a place that seeks to foster relationship building, cross-cultural understanding and self-awareness.

In this new era, it is important not only to keep up with rapid changes but also to continue tradition. The Clara Dasher Student Center provides a fun, safe and relaxing environment to do it all.

Since Fall 1988, part-time students have had the opportunity to be considered eligible for the Dean's List. The criteria are essentially the same as those for full-time students.

- A grade point average of 3.50
- A minimum of twelve college credits with no grade lower than "C" and no "I"s.
- The 12- credit block which qualified the student for the Dean's List can be used only once.

—— Only college-level courses may be counted. ———

Phi Theta Kappa International Honor Society

Phi Theta Kappa is the international honor society for two-year college students.

Phi Theta Kappa has recognized academic achievement of community college students since 1918. Over 1,200 college chapters, including the Alpha Theta Theta Chapter at Essex

County College, are chartered in all fifty of the United States, as well as in Canada, Germany, Japan, the U.S. territorial

possessions and military installations abroad. Membership in Phi Theta Kappa enables students to gain public recognition for their academic achievement and the Society provides opportunities for leadership, scholarship, fellowship and service. Membership can be noted on transcripts, diplomas and job resumes. Phi Theta Kappa students who complete the Associate Degree are eligible to compete for over \$35 million in dedicated scholarship funds at colleges and universities in the United States.

To join the Alpha Theta Theta Chapter of Phi Theta Kappa, you must:

- Be currently enrolled in at least six college level credits at Essex County College.
- Have completed 12 college level credits at Essex County College.
- Have a cumulative GPA of 3.60 or higher.
- Have no D's or F's on transcript unless retaken successfully.
- Complete the application process, including payment of a one-time membership fee.
- Submit two letters of recommendation from Essex faculty, staff or administrator.

Students are urged to take advantage of the opportunity to join Phi Theta Kappa as soon as the 3.60 GPA is attained. Once a student is inducted into the Honor Society, a minimum 3.25 GPA must be maintained.

Students with high expectations eagerly seek membership in Phi Theta Kappa. For further information, contact Professor Lynn Wilson, Room 2177, (973) 877-3213; Professor Sean O'Connell, Room 1141, (973) 877-1926 or Dr. Nidhal Marashi, Room 2168, (973) 877-3370.

Records Hold.

A "hold" will be placed on the records of any student who fails to complete their obligation to Essex within the time prescribed.

Any student with an invalid address or who fails to pay tuition costs, return library books, return athletic equipment or other college property, complete financial aid exit interviews, is in default of student loans, commits infractions against College regulations, etc., is subject to a records hold.

Such holds may prevent registration and the posting of grades and transcripts, or may result in the student's removal from classes or the College.

Academic Irregularity—

Note: The handling of an academic irregularity is within the discretion of the faculty who may, among other actions, have students removed from classrooms, refer them to counselors or give a failing grade as appropriate.

- No student shall receive assistance, which is not authorized by the instructor in the preparation of any assignment, essay, laboratory report or examination to be submitted as a requirement for an academic course.
- No student shall knowingly give unauthorized assistance to another person in such preparation.
- No person shall sell, give, lend or otherwise furnish to any unauthorized person material, which can be shown to contain the questions/answers to any examinations to be given in any course offered by the College.
- Plagiarism is prohibited. Theses, essays, term papers, tests and other similar requirements must be the work of the student submitting it.
 Direct quotations must be indicated, ideas of another must be appropriately acknowledged.
- Any person altering, taking, or attempting to take, steal or otherwise
 procure in any unauthorized manner any material pertaining to the
 conduct of a class, including tests, examinations, laboratory
 equipment, roll books, etc., shall be in violation of this regulation.

Academic Evaluation

Students have a right to a fair and objective academic evaluation; however, students are responsible for maintaining the standards of academic performance established by the faculty for each course in which they are enrolled. Faculty has a responsibility to advise students of course expectations, criteria for grades, and to make themselves available for conferences with individual students who seek counsel and advice regarding their progress in the course.

Academic Appeal

- A student desiring to formally appeal a final grade must initiate the
 process by completing a **Grade Appeal Form** and submitting it to the
 appropriate Department or Division Chair. The "reason" for the appeal
 should be written with sufficient detail to insure the opportunity for a
 clear response. The appeal process varies for some majors for more
 information please contact the department of your major.
 - The appeal may not be submitted until one week after the end of the semester in which the grade was awarded.
 - An appeal may not be submitted beyond six months after the end of the semester in which the grade was awarded.
- The student must meet with the instructor and review the criterion used to determine the final grade. If the student has not yet done so, the Chair will ask the student to meet with the instructor.
- If the student and faculty member cannot resolve the grade appeal, the Chair will meet with the student and the instructor within five working days.
 - a. When appropriate, the Chair may ask a departmental committee to review material (e.g., the final essay in ENG 101) and make a recommendation.
 - b. A meeting with the Chair does not preclude the student's right to appear before the Grade Appeal Committee.
 - On merit, the Chair may recommend that the instructor request a change of grade or recommend that the student accept the original grade.
- 4. If the student is not satisfied with the resolution suggested by the Chair, the appeal will be forwarded to the Divisional Appeal Committee.
 - a. The Chair will convene a meeting of the Divisional Appeal Committee within ten working days.
 - The Grade Appeal Committee will be chaired by a faculty member in the Division.

- c. The student and the instructor will be asked to attend the meeting of the Grade Appeal Committee. Each party will be asked to address the Committee directly. At the committee Chair's discretion, some discussion may occur.
- d. The Committee will make a recommendation to the Division Chair who will the notify the student of the Committee's decision within 10 days of the meeting.
- If the student is still unsatisfied with the resolution suggested by the Divisional Committee, the appeal will be forwarded to the appropriate academic Dean.
 - a. The Dean will meet with the student in an attempt to mediate a resolution.
 - b. Failing to bring the matter to resolution, the Dean will convene a meeting of the College Wide Grade Appeal Committee.
 - c. In addition to the Dean, the Committee will have six members:
 - i. A faculty member from the department offering the course for which the appeal is being made.
 - ii. A full-time faculty member selected by the student.
 - iii. The Chair of the Academic Standards and Assessment Committee.
 - iv. The Dean of Students or designee.
 - A student representative identified by the Dean of Student Affairs to serve as a student advocate.
 - A Division Chair from a department other than that from which the appeal arises.
 - vii. In instances where the course was taught at the branch campus or another off-campus site, a representative from that site may be added to the Committee.
 - d. If when appropriate, the Dean may identify an individual outside the institution with appropriate expertise to review material and/or make recommendations.
 - e. The student and the instructor will be asked to attend the meeting of the Grade Appeal Committee. Each will be asked to address the Committee directly, and at the Committee Chair's discretion, some discussion may occur.

- f. The Grade Appeal Committee will discuss the matter further in private and make one of the following recommendations to the Academic Dean:
 - i. Affirm the grade as appropriate, or
 - ii. Recommend that the instructor change the grade.
- g. The Dean will meet with the faculty member and Division Chair to ensure implementation of the Committee's recommendations.
- The Grade Appeal Committee is the final level of appeal. Decisions
 of the Committee will be communicated to both parties by the
 Dean chairing the Committee.

ACADEMIC INTEGRITY

Essex County College promotes academic excellence and expects its students to be honest, responsible individuals when presenting and submitting class assignments and/or projects that demonstrate their ability to understand and master the subject matter being studied. Any form of academic dishonesty (cheating, unauthorized collaboration on an assignment, plagiarism, stealing of an exam, etc.) is strictly forbidden and will result in serious disciplinary action, including possible expulsion from the institution. All infractions will be handled by the appropriate faculty and academic departments, with input from the divisional counselor, if appropriate.

Disciplinary Process

The following process is designed to provide an opportunity for fairness and equitable determination of matters involved, and are to be executed collaboratively between Campus Security, Dean of Student Affairs, and appropriate academic department.

Classroom Infraction - Any inappropriate behavior demonstrated in class must be handled in a timely manner by the faculty member in charge using the following guidelines:

- a. Informal Infractions that create minor disturbances in the classroom (i.e. challenging professor's authority, verbal altercation, refusal to comply to classroom rules) should be discussed between the faculty member and student(s) involved. If a student is uncooperative and/ or persistent, they should be referred to the counselor's area for consultation and recommended action. Recommended action could include mediation/ conflict resolution counseling facilitated by the Dean of Student Affairs or designee. Repeated offenses are reported to Campus Security for follow-up and referral to the Code of Conduct Committee.
- b. Formal Infractions that create serious disturbances in the classroom (physical altercations, destruction/alteration of property, verbal threats) should be immediately reported to Campus Security and the Dean of Student Affairs for code of conduct action.

It is critical that such incidents be reported immediately after they occur to the appropriate department, and no faculty member should take it upon himself or herself to resolve the matter. A reporting form is available for documentation.

Operating Procedure - Student Infractions

"Academic Integrity is a commitment, even in the face of adversity, to five fundamental values: honesty, trust, fairness, respect, and responsibility. From these values flow the principles of behavior that enable academic communities to translate ideals into action."

(The Fundamental Values of Academic Integrity. The Center for Academic Integrity. 1999)

"The call to promote academic integrity places responsibility upon everyone in the educational community to balance high standards with compassion and concern." (The Fundamental Values of Academic Integrity. The Center for Academic Integrity. 1999)

Infractions of Academic Integrity

Dishonesty disrupts the search for truth that is inherent in the learning process and so devalues the purpose and the mission of the College. Academic dishonesty includes, but is not limited to, the following:

Plagiarism

Plagiarism is the failure to acknowledge another writer's words or ideas or to give proper credit to sources of information. The act of plagiarizing, whether willful or inadvertent, is a violation of the academic code of conduct required of students and faculty of Essex County College and is a serious breach of academic integrity.

Examples of plagiarism include the following:

- Quoting or paraphrasing from a text, encyclopedia, article, internet site or other source (published or unpublished) without appropriate citation.
- Utilizing a paper of another, in part or in whole, which is submitted as your original work

Artificial Intelligence Tools Statement

Artificial Intelligence (AI) resources may only be used if an assignment clearly states that is an acceptable option or if the instructor explicitly permits it in the syllabus. In such cases, you may only use the specific tools identified as acceptable and you must adhere to the College's standards for attribution, validation, and transparency.

This means that you must (1) fully document all material that was not generated by you, (2) check information generated by Al and take full responsibility for its accuracy, and (3) identify where and how you used any Al tools and how they contributed to your work. Assessment may focus on how you improve on and surpass the initial contributions of the Al.

Use of any Al tools without permission is unacceptable and will be considered as an academic integrity violation - an act of plagiarism which can result in the failure of the assignment. If you have any doubts about what is acceptable please discuss them with the instructor of the class. The institution is actively securing software that detects the use of Artificial Intelligence Tools.

Cheating

Cheating is knowingly obtaining or giving unauthorized information on an examination or any OTHER academic assignment.

Examples of cheating include the following:

- Copying from another's work and passing off that information as one's own.
- Allowing others to copy information from you to pass that off as their own.

- Using unauthorized materials or information from a text, study aids or notes during an exam or exercise.
- 4. Communicating in any manner with others during a test with regard to the content of the test or discussing the contents of a test with someone who has not yet taken it.
- 5. Engaging in any activity to procure information concerning a test or exercise unless it is authorized by the professor.

Interference

Interference is any interruption of the academic process that prevents others from the proper engagement in learning or teaching.

Examples of interference include the following:

- Altering, damaging or removing other's work such as a test, homework, laboratory experiments, computer accounts, library researched materials, etc.
- 2. Engaging in any rude, intimidating, or threatening behavior, which prevents the teacher from conducting a class or which attempts to extort a grade.
- Stealing an examination or accessing its contents regardless of format.

Fraud

Fraud is an act or instance of willful deceit or trickery.

Examples of fraud include the following:

- 1. Falsifying records.
- Falsifying data collected such as that for a scientific experiment or statistical study.
- 3. Falsifying personal information requested by a college official.
- 4. Obtaining, purchasing, or selling prepared materials for submission in a course.

Sanctions for Infractions of Academic Integrity

Faculty members have an obligation to educate students with regard to the standards of academic integrity and to report violations of these standards through appropriate channels. The level of the sanction will reflect the severity of the infraction. The sanction will be determined at the discretion of the faculty member involved and is subject to review, discussion, appeal and potential intervention of the Academic Integrity Committee.

Sanctions for infractions of academic integrity include, but are not limited to the following: resubmission of assignment, resubmission of assignment with a higher degree of difficulty or reduction of grade, failure of the assignment, failure in the course, probation, suspension from the College, and expulsion from the College.

Process for Sanctions and Appeals

Whenever there is suspicion of academic dishonesty, the faculty member will arrange to meet with the student to explain and discuss the suspicion of dishonesty and give the student a chance to explain. Should sanctions be imposed, the following process applies:

First Level _

The instructor meets with the student, the infraction is clarified and the sanction imposed. If the student disputes the infraction committed and/or the sanction to be imposed, the student must make an appointment to meet with the Division Chair.

The Division Chair will meet with both parties in an attempt to resolve the dispute.

Second Level -

Should resolution fail at the First Level and if the student challenges the final grade, the College academic appeal procedures (grade appeal, see Regulation 6-13) will be followed. Challenges other than a final grade will be heard either by the Academic Integrity Committee or the Code of Conduct Committee based on the nature of the offense.

Infractions involving criminal behavior are managed through the college security department and the student code of conduct procedures. The most severe sanctions (probation, suspension from the College, and expulsion from the College) cannot be imposed by the instructor alone but can only be imposed as a result of a student code of conduct procedure.

Public Area Infraction – Inappropriate behavior that occurs in any public area of the college (see previous listing) should be handled immediately according to the following procedure:

Incident should be reported to Campus Security for documentation, and to the Associate Dean of Student Life & Development for further review and code of conduct action. Cases referred for code of conduct action may be handled in the following manner:

Any party involved in an incident that could jeopardize the welfare of members of the college community (physical altercation,

possession of weapon, severe verbal threats) is subject to immediate suspension pending review of the case and scheduling of code of conduct hearing. This action is to be determined by the Associate Dean of Student Life & Development. Suspension means that student is not allowed to attend classes until the case is resolved, and if reinstated, they are responsible for any work missed during the period.

- a. Informal action Review of the incident by the Associate Dean of Student Life & Development or designee could result in consultation with necessary parties to discuss behavior, resolution, and appropriate action, if necessary. Written documentation of the incident and action will be filed accordingly.
- b. Formal action Review of the incident by the Associate Dean of Student Life & Development or designee will result in the referral of case to the Code of Conduct Committee for hearing and recommended action. At that time, a hearing will be scheduled to review all information regarding the case, including parties involved and any other witnesses. The Code of Conduct Committee will offer recommended disciplinary action to the Associate Dean of Student Life & Development for final disposition. Written documentation of the recommended action will be provided to the parties involved, with the opportunity for appeal provided.

ANY APPEALS SHOULD BE MADE TO THE DEAN OF STUDENT AFFAIRS WITHIN FIVE (5) WORKING DAYS OF RECEIPT OF FORMAL NOTIFICATION.

- 2. If a resolution is not reached, the student should make an appointment to meet with the Chairperson of the Division / Department.
- The issue will be addressed in the Division/Department by the Chairperson.

Campus Security
Anthony Cromartie, Director of Public Safety
Room 2250
(973) 877-1873

The Crime Awareness and Campus Security Act is a reporting and disclosure statute to ensure that students and the Higher Education Community are made aware of the presence of crime on campus. This statistical information is published in the college newspapers and other periodicals; it can also be obtained upon request. Campus safety is the responsibility of college administrators and students alike. Essex County College's Department of Campus Police/ Security consists of commissioned Police Officers who have full police powers to enforce state statutes, municipal ordinances and college regulations. They are assisted by a security force whose members are stationed at main entrances of the campus, on parking lots and at all strategic campus locations for the protection of students, staff and visitors.

Essex County College Police Officers are always in direct radio contact with Police Headquarters and can quickly respond to emergency situations and calls for assistance. As part of the total campus safety program, the Essex County

College Police Department has the Security Officers' division located at the main entrances of the campus and parking lot locations. The Security Officers' division is also in direct radio contact with Police Headquarters.

They are trained to report suspicious and criminal activity and to provide assistance to the college community. Students are kept informed of the status of campus safety on a consistent basis through the student newspaper, ECCO. They are encouraged to read timely brochures and fliers on the subject of campus security and to participate in the workshops and seminars conducted by Campus Police/Security each semester. These informative sessions emphasize standards of student conduct, campus safety techniques and crime prevention.

College security policies require that if you witness or become a victim of any criminal or suspicious activity, or observe a health or accident emergency, you must report the matter immediately to the nearest Security Officer

If no Security Officer is in the direct vicinity, observe the following steps carefully:

- Dial Campus Security at (973) 877-3312, if at West Essex dial (973) 877-6577
- Be calm and speak clearly.
- Give your name, location and reason for calling.
- Request medical assistance, if needed.
- Answer all questions asked by the Dispatcher.
- Obtain names and addresses of witnesses, when possible.

Do your part to keep our campus safe, carry your Essex college ID.

Campus Parking

Fee: \$75 for an Access Key Card.

Each semester, students can pay a fee of \$75.00 for the parking access key card. Parking is available to students in the parking deck located on W. All students using the parking deck must be registered for the current semester, have an access key card and a parking decal for the current semester. The only designated parking spaces are for those with disabled parking privleges, all others must park inside the parking deck. Once a student no longer needs to use the parking facilities, that student can return the undamaged access key card to the Public Safety Office where they will receive a memo to take to the Bursar's Office for a reimbursement of \$25.00.

Essex County College adamantly condemns all acts of violence on campus, including sexual assaults, domestic violence, stalking, and dating violence. All incidents of sexual violence, whether reported by a victim or bystander will be immediately reported to the local police department and aggressively investigated by the appropriate College Officials. Sexual offenses (whether forcible or non-forcible), domestic violence, dating violence, and stalking violate the criminal law and College Regulations. Any reported violations will be treated swiftly through legal avenues and/or the pre-established College disciplinary procedures.

If you experience any form of sexual misconduct, domestic, dating violence, stalking, and/or sexual harassment, the College objectives are to end the misconduct, prevent its occurrence and address its effects. In reporting activities that constitute a crime, initial contact should be made to the police where the offense took place as quickly as possible. Students, staff, faculty, visitors and business partners have the options of notifying the Public Safety

Department who then will notify local police. To report a violation, contact the Dean of Students or the Title IX Coordinator.

29	

Essex County College is a Smoke-Free Campus.

For the health of our community and to reinforce the College's commitment to the New Jersey Smoke Free Air Act, smoking is prohibited effective July 1,2011 on Essex property, including all grounds, playing fields, walkways, roadways, parking lots, parking garages, and vehicles on college property. The policy applies to all persons on College property, including students, employees, and visitors. Violators are subject to a fine.

Students Rights and Responsibilities _____

The rights and responsibilities, as defined below, are an integral part of the educational process. Any additional rights or responsibilities may be made known under established procedures during the year as required for the general well-being of the student body and college. A student is expected to follow these rules, and the college is expected to acknowledge the students' rights stated herein and respect their autonomy in these areas. Unfamiliarity with the following is not an excuse for infractions of the regulations. Knowledge of it, on the other hand, can help the student understand their rights and avoid having others infringe on their rights.

Written Materials	

Recognized student organizations have the right to publish and distribute written material provided that the material is identified by the name of the student organization and done in accordance with college regulations. Student publications shall be guaranteed the rights inherent in the concept of "freedom of the press." The Code of Ethics shall protect those rights and establish and enforce standards of responsible journalism which shall include the avoidance of libel, indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo. Copies of the code are available in the Student Life and Activities Office

Issues —

Students shall have the right to take stands on issues, the right to examine and discuss questions of interest to them, and the right to support causes, by orderly means, which do not disrupt the regular and essential campus operations. Students are urged to serve on the appropriate college committees as a means of voicing their opinion through the proper channels.

Children On Campus-

Students are prohibited from bringing children to the Campus and leaving them unattended while they attend classes or use the library. Students who bring children to class or the library or who leave them unattended elsewhere in the building will be directed to immediately attend to their children. After second occurrence within the same semester, the student may possibly be suspended for the remainder of the semester. The Student Code of Conduct Committee will hear all such cases brought to its attention. The student may appeal the decision of the Student Code of Conduct Committee to the Dean of Student Affairs

Animals On Campus-

No animal, other than services animals, is allowed inside a campus building. No animal is allowed on exterior campus areas unless it is on a leash and under the control of its owner.

Affirmative Action-

It is the policy of Essex County College not to discriminate on the basis of race, creed, color, religion, national origin, age, sex, physical handicap or marital status in its educational programs, activities or employment. Further, the college agrees to adhere to all federal and state statutes, orders, regulations and guidelines concerning equal opportunities.

Emergency College-Wide Announcements

The college-wide public address system is to be used for emergency announcements only; where possible these announcements should be restricted only to those areas where it is necessary. Announcements will be made only when safety precautions are necessary to be disseminated to the entire college community. Some examples include school closings, important special announcements for the college body, or when records are not helpful

in locating students. Overall, it is determined by the college that the emergency matter warrants general announcement.

All requests to locate individuals because of emergencies should be referred to Public Safety. (973) 877-3312

Room 3249, Third Level, Yellow Area

Mon. - Fri. 8:30 a.m. - 5:00 p.m.

Phone: (973) 877-3362

This program is for 9th through 12th grade Essex County high school students. The program helps students improve the skills needed to successfully handle the rigors of college. The program provides the following services within each high school:

- Administers the ACCUPLACER Test to assess students' skills in reading, writing and math computations and to determine their readiness to successfully handle the demands of college coursework;
- Provides students and counselors with feedback from that assessment and recommends actions to improve skills in areas where needed;
- Provides dual-enrollment opportunities where students may enroll in college non credit bearing courses to improve skills where the assessment shows weakness(es), or credit-bearing courses for students whose assessment indicates ability to successfully handle regular college courses;
- Provides a series of student/parent/counselor workshops to familiarize students and parents with the social, behavioral and performance adjustments and expectations of college students.

Through this program, high school students may substantially reduce the need to enroll and pay for non-credit bearing, developmental courses upon entering college, since much of that coursework may be completed while still in high school.

Inquiries and requests for additional information can be obtained by calling or reporting to Room 3299, Third Level, Yellow Area.

Copyright and Copyright Infringement Violations

All members of the Essex County College (ECC) community are bound by U.S. Copyright Law when using ECC computing resources. An important aspect of copyright law is the fair use doctrine which allows for limited reproduction of copyrighted works for various purposes such as criticism, comment, news reporting, teaching, scholarship, and research.

Copyright law does not permit the unauthorized distribution or sharing of copyrighted materials (e.g. music, movies, software, books, etc.) on computer networks. In particular, the illegal distribution of copyrighted materials via "peer to peer" file sharing techniques may subject users to criminal and civil penalties.

The Digital Millennium Copyright Act (DMCA), enacted in 1998, criminalizes distribution of technologies intended to circumvent measures that control access to copyrighted works. It also heightens penalties for copyright infringement on the Internet.

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Current penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay

either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorney's fees. For details, see Title 17, United States Code, Sections 504 and 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For more information, please see the Web site of the U.S. Copyright Office at www.copyright.gov.

Essex County College Policies on Copyright

ECC's College Regulation 2-8 requires all users to abide by copyright and trademark laws relating to the use of computing resources. Users shall not copy, disclose, modify, or transfer copyrighted materials. Exceptions are only granted under the fair use doctrine referenced above.

ECC responds with haste to investigate all reported violations of copyright infringement through use of its computing resources. This includes reported violations of the Digital Millennium Copyright Act. Reported violations are investigated in conjunction with the Dean of Students Office and/or the Office of Human Resources.

Violation of these policies may result in a range of sanctions beginning with loss of certain computing privileges up to suspension or expulsion from the university for students and termination of employment for employees.

Disability Services _

Maria Mercado, Coordinator Room 4122-I (973) 877-3071

In college, the disability identification process differs significantly from high school. In college, it is the student's responsibility to self-disclose and to provide the appropriate documentation of special disability needs to Disability Services. A "person with a disability" includes "any person who (i) has a physical or mental impairment which substantially limits one or more of such person's major life activities; (ii) has a record of such an impairment, or (iii) is regarded as having such impairment."

A "qualified person with a disability" who meets the requisite academic and technical standards required for admission or participation in the post-secondary institution's programs and activities, is eligible under Section 504 of the Rehabilitation Act and Americans with Disabilities Act, to receive reasonable accommodations. As defined by law, if a student has self-identified a disability and wishes to seek accommodations, appropriate documentation less than two years old must be submitted.

All documentation must verify the disability, functional limitations and the need for accommodations. Students must meet all requirements and institutional standards for all classes

Grievance Procedure

PROCEDURE

Grievances by students with Disabilities must be filed in written form within 30 days of the specific event or action precipitating the student's complaint(s). As an initial matter, all grievances shall be reviewed by Disabilities Services to determine whether they are submitted within a timely manner and/or whether they contain all required information. Disability Services will not review a grievance that is untimely or fails to contain all required information, including a clear statement of all grounds for the grievance and any attempts at prior remedies. To facilitate a clear and prompt resolution, a grievance, once initiated, shall not be expanded beyond the issues presented in the student's initial complaint. Disability Services reserves the right to redirect a grievance to the proper grievance procedure or any other appropriate review procedure.

2. DESIGNATION OF RESPONSIBLE EMPLOYEE

Consistent with federal law, Essex County College has designated employees to coordinate its efforts to comply with and carry out its responsibilities, including an investigation of any complaint communicated alleging its noncompliance. The names, office address and telephone number of these employees is indicated below:

3. INFORMAL GRIEVANCE PROCESS

As a prerequisite to initiating the formal grievance procedure, an Essex County College student shall first attempt to resolve the issue directly with the faculty member or staff member(s) involved. Second, it is also expected that the student has addressed his or her complaint informally by meeting with a representative of Disability Services and/or a department chairperson. When a student files a formal grievance, he or she will be asked to summarize the effort that has been made to resolve this issue informally both with the faculty or staff member involved as well as with a designee of Disability Services. If the

grievance is not resolved informally, then the student shall have the right to invoke the appropriate formal grievance procedure.

4. FORMAL GRIEVANCE PROCEDURE

A documented student with a disability, as defined by the ADA and the Rehabilitation Act, shall have the right to request the Director of the Office of Student Development and Counseling and/or Disability Services to review alleged denial of any requested accommodation or service by fully complying with procedures detailed below. This provision shall also apply to a student requesting an academic accommodation who believes he or she has been wrongly denied.

- The student must submit a fully completed grievance form to Disability Services within 30 days of the alleged denial of accommodations or services.
- A timely review request will not be considered to have been filed unless it includes all of the required information. The student is solely responsible for supplying all required information on the grievance request form.
- The Director of the Office of Student Development and Counseling and Disability Services shall together assess the review request and all information necessary to render a written determination.
- Within ten days following receipt of the written decision about the grievance by Disability Services, if the student disagrees, the student may seek a review by the Dean of Student Affairs.
