# A New Direction in Developmental Courses

There is a new direction in developmental education at Essex County College. If you have tested into any zero level courses, please note the following:

If you placed into ENG 085, ENG 096 or ENG 098 or are repeating any of these:

Register for the combined ENG 099+ENG 101 applicable to all majors.

If you placed into MTH 086 or are repeating

Register for MTH 086 + MTH 086T

If you placed into MTH 092, or are repeating:

- Social Science and Humanities majors
  - Register for either the combined MTH 091S + MTH 101 or MTH 093S + MTH 103
- Business majors
  - Register for either the combined MTH 091S + MTH 101 or MTH 092/MTH 092T (see your advisor)
- Science, Technology, Engineering and Mathematics majors
  - o Register for MTH 092/MTH 092T

If you are registered for any developmental course or a developmental course combined with a college course:

 You are encouraged to take the FYE 097 First Year Experience course. FYE 097 course prepares you for the first year of college life and in it, you will learn the necessary skills for college advancement and receive continuous support.

The new approach links together developmental and college level courses. This accelerated approach will allow you to **complete your developmental sequences and get credit for a college course in as little as one semester**. The 09x courses gives you just the extra skills needed to be successful in the college course that counts towards your degree requirements.

The following pages provide additional details about the developmental course sequences and placement.

#### Frequently Asked Question about MTH 091S/MTH 101 and MTH 093S/MTH 103

1. Do all students interested in taking MTH 101 have to take MTH 091S concurrently with MTH 101, and do all students interested in taking MTH 103 have to take MTH 093S concurrently with MTH 103?

No, not all students have to take MTH 091S concurrently with MTH 101, and not all students have to take MTH 093S concurrently with MTH 103. The students that DO have to take the 09-level concurrent course are those that passed MTH 086 with a grade of C or better, or students that placed at MTH 092. Students that DO NOT have to take the 09-level concurrent course are those that passed MTH 092 with a grade of C or better, or students that placed at the level of MTH 100, MTH 101 or MTH 103.

2. What are the course grading options for MTH 091S and MTH 093S?

MTH 091S and MTH 093S will be graded the same way that the other developmental math courses (MTH 086 and MTH 092) are graded. That is, students may earn passing grades of A, B+, B, C+ or C, and students that do not pass will receive a grade of M (making progress). MTH 091S and MTH 093S are graded independently of the respective concurrent courses of MTH 101 and MTH 103.

3. If students pass MTH 091S or MTH 093S, and NOT the respective MTH 101 or MTH 103 course, do students have to repeat both the 09-level and the respective 100-level course?

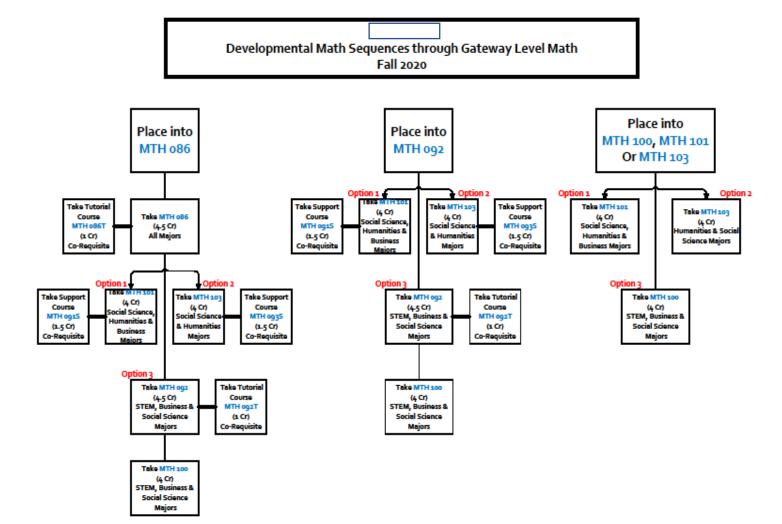

No, if students pass MTH 091S or MTH 093S, and NOT the respective MTH 101 or MTH 103 course, then students only have to repeat the 100-level course. The 09-level course DOES NOT have to be repeated.

4. If students pass MTH 101 or MTH 103, and NOT the respective MTH 091S or MTH 093S course, do students have to repeat the 09-level course?

No, if students pass MTH 101 or MTH 103, and NOT the respective MTH 091S or MTH 093S course, then students DO NOT have to repeat the respective 09-level course.

5. What math sequence should General Science majors take?

General Science majors that do not place at the 100-level should take the developmental math sequence that will prepare them for MTH 100. That is, students that place at the MTH 086 level, should take MTH 086, MTH 092 and MTH 100. Students that place at the 092 level, should take MTH 092 and MTH 100. Students that place at the 100-level, can take MTH 100 or MTH 101. The courses MTH 091S and MTH 093S DO NOT prepare students for MTH 100.

#### **English Placement Cutoff Scores:**

The following table explains what scores an incoming student must earn in both their writing and reading portions in order to determine whether they are placed into ENG-099/101 or standalone ENG-101:

Writing	Writing	Reading	Reading	Placement
(Min.)	(Max.)	(Min.)	(Max.)	
0	0	200	300	Off Topic or ESL
1	5	200	300	ENG-099/101
6	6	200	236	ENG-099/101
6	6	237	300	ENG-101
7	8	200	300	ENG-101

# **How to Wait List for a Closed Course**

Waitlist is available to students attempting to register for sections that are full to capacity.

**A Waitlist demo is on YouTube.** Search for "**Essex College Waitlisting**." Set the resolution to 480 or 720p for the best picture.

#### **Getting on the Waitlist:**

- 1. Go to **Web Services** where you register for courses.
- 2. Type the CRN of a course you want and click Submit Changes.
- If the course is closed, it will appear under a red dot that says "Registration Add Errors" and under Status it will say "closed." Open the Action menu of the course, click "wait list," and then click Submit Changes.
- 4. You are now on the Wait List! You are not billed for Waitlisted class.

NOTE: Waitlisted courses DO appear on student schedules, but being on a waitlist does NOT guarantee that the student will be allowed to register for the course. Students who are de-registered (purged) for non-payment are removed from all waitlists.

#### **Notification of open seat:**

If a seat becomes available, <u>you will receive notification in your Essex County College email account</u> unless you changed your preferred email in Banner. **Check your ECC email frequently**. You will have a <u>small window of time</u>, <u>sometimes as little as 12 hours</u>, <u>to claim your seat</u>, and the clock starts when the email is sent, not when you read it. No one else can take your seat until your time expires.

#### 

**Remember to check your e-mail frequently.** If your window of time expires, you will be removed from the waitlist and the next person in line will be given the opportunity to take the open seat. If you add yourself back to the waitlist, you will be added at the end of the line.

#### Registering when a seat is available:

- 1. <u>The system will NOT register you automatically</u>; you have to register yourself after you receive the e-mail notification.
- 2. Go to the **Web Services** where you register for courses.
- 3. Open the Action menu for the waitlisted course; change the status of the class from 'Waitlist" to "Web Registered" then click Submit Changes.
- 4. You are now registered for the course!

<u>If you miss your registration window</u> your only recourse is to re-add your name to the waitlist. Please be aware, some activities are irreversible. If you drop a class that has a waitlist, the seat will be offered to the student at the top of that waitlist. There is no undo!

<u>When searching for open classes</u>, please keep in mind that open seats are NOT available if they have been offered to students on top of the Waitlist. If the number in the "**WLAct**" column is greater than in the '**Rem**' column, then open seats are NOT available.

(Wait Listing may not be available for certain courses)

# **REGISTRATION COMMON ERRORS**
